Customize your new Xbox One Experience 29

Greetings,

At Xbox, we put games and gamers at the center of everything we do. On behalf of Team Xbox, I am excited to bring you the fastest and most social Xbox experience ever with the launch of the New Xbox One Experience this fall.

The completely reimagined interface is inspired by our fans and represents the craft of hundreds of Team Xbox members. To deliver speed and new ways for gamers to engage more broadly and deeply with the Xbox Live community, we have made bold changes. The New Xbox One Experience integrates the power of Windows 10, elevating your gaming experience and enabling you to get to many popular gaming features up to 50% faster. Instantly start a party, see what your friends are playing, and get updates on recently played games directly from Home—with no wait time. Simply press left or double tap the Xbox button on your controller to access the essential gaming

features available in the new guide—without ever leaving your game. We've designed the Community, OneGuide, and Store sections with one vision in mind—quicker and easier access to what you want, when you want it.

I am also excited to rollout Xbox One Backward Compatibility to you this November. Xbox One Backward Compatibility will be available to everyone for free, with a launch portfolio of over 100 games, with hundreds more to come. Just as we've focused on fan feedback in the development of the New Xbox One Experience, Xbox One Backward Compatibility extends to many of the top-voted games on Xbox Feedback, including Fallout 3, Gears of War 3 and other fan favorites. Starting November, all future Games with Gold titles for Xbox 360 will be playable on your Xbox One, giving you even more free games to enjoy every month.

We hope you enjoy playing Xbox 360 games on Xbox One, now with the fastest and most social Xbox experience ever. Combined with the greatest games lineup in Xbox history, this marks a truly epic moment for Xbox fans. Thank you for being a part of this journey.

Welcome to your New Xbox One Experience.
I'll see you on Xbox Live!

Mike Ybarra

Scenarios

Getting around

Get to the guide from Home or a game

Move left to open the guide from home. You'll see quick access to friends, parties, messages and more.

Tip

To launch the guide from a game, **double-tap**  on your controller.

Get to your collection and your pins

Press the right trigger to get to your stuff at the bottom of the home page—the things you own, pin, and recently played. Jump back with the **left trigger**.

Tip

Use the  and  on your controller to navigate vertically on pages.

Connect with the Xbox Live community, watch live TV, or browse through the Store

Move right to see what your friends and others are up to in the Xbox Community. OneGuide expands to offer the latest in live TV and movies.

Tip

Use the  and  on your controller to move across screens quickly.

Play Xbox 360 games on Xbox One

To play Xbox 360 games on Xbox One, first make sure your game is supported for Xbox One gameplay. Games supported for backward compatibility will be marked in the Xbox 360 catalog.

Then, just pop in the disc. Or, if you own a game digitally, look for it in your Xbox One games list under Ready to install.

When you're playing an Xbox 360 game on Xbox One, it's like you're on Xbox 360. Xbox One apps like Friends and Party don't interact with your game.

Make sure you save your game frequently. If you open another full-screen app or game without saving, you'll lose your unsaved progress.

To continue playing a game on Xbox One that you started on Xbox 360, save it to the cloud.

If you're already using cloud saves, you're good to go. If your saved game is stored only on your Xbox 360, do the following:

On Xbox 360, go to Settings > System > Storage > Cloud Saved Games and select Enable.

Start your game. When you're prompted to select a device for saving your game, choose Cloud Saved Games.

End your game. Leave your Xbox 360 on long enough for it to upload your saved game. When you play the game again, you'll pick up where you left off.

Tip

Send game invites and start parties the way you do on Xbox 360, using the Xbox Guide. Open it by pressing the  and  at the same time.

Take a screenshot or game clip for sharing

When you're in a game and you see something you want a picture of, double-tap  on your controller and then press . A notification will confirm your screenshot.

To record a 30-second game clip from within your game, double-tap  on your controller and then press  when you're ready to record. A notification will confirm your game clip recorded.

Share epic moments

Post a comment to your activity feed

1. Go to the Community area.
2. At the top of the activity feed, select "Got something to say?"
3. Type your comment and select Enter.

Share a new accomplishment

1. Press  on your controller to open your achievement, screenshot, or game clip confirmation message.
2. Select Share, and then choose where you want to share the item.

Re-share something from your activity feed

1. Select any activity feed item, from your feed or someone else's.
2. Select Share, and then choose where you want to share the item.

Dive deeper with Game Hubs

Get to a Game Hub from Home

Choose from the list of recently played games on Home. Select Game Hub.

Get to a Game Hub from your collection

Scroll right to get to the Store, then find your game in the catalog. Select Game Hub.

Get to a game hub from the store

Select a game in your collection. Press  on your controller, and then select View Game Hub.

What can you do from Game Hubs?

Check out the game's activity feed and showcase of top content from players across Xbox Live.

Follow a game so that the latest info always appears in your activity feed.

See which of your friends plays the game—and who's playing right now.

View the latest trending content, and get to know top clip creators and broadcasters.

Compare achievements with friends and measure yourself against the best on the leaderboards.

Stream Xbox One games to a Windows 10 PC

1. Connect your Xbox One and your PC to your home network. A wired connection works best for streaming.
2. On your Xbox One, go to Settings > Preferences. Under Streaming & Broadcasting, select Allow game streaming to other devices. Then, under SmartGlass Connections, select From any SmartGlass device.
3. Check to make sure your Xbox One is turned on and that you're signed in with the same account you use to sign in to your PC. Then, on your PC, go to Start > Xbox > Connect, and select your Xbox to connect to it. The Xbox app will connect to your Xbox One automatically when it's turned on.
4. Once you're connected to your console, connect a controller to your PC. Then select Stream and choose the game you want to play. Or, choose an Xbox One game anywhere in the Xbox app and select Play from console to stream it.

Hardware requirements for streaming:

- Processor: At least 1.5 GHz
- RAM: At least 4 GB
- Video card: Needs to support hardware H.264 video decoding
- Network: A wired Ethernet connection works best for game streaming
- For a wireless connection: An 802.11 N or newer wireless adapter
- Other: An Xbox One or Xbox 360 controller

Watch live TV and the best in entertainment

Watch live TV

To set up TV, plug your cable or satellite box into the HDMI-in port on the back of your Xbox, or connect a compatible USB TV tuner. From Home, go to the OneGuide hub, and then choose Live TV. Follow the steps to set everything up. Now you can watch live TV!

Add a favorite channel

From Home, go to the OneGuide hub and then choose Live TV. Press  on your controller and select TV listings, then choose All channels. Find the channel that you want to favorite and click the star to favorite it. Press  again and select Favorites to see all your favorite TV channels.

Add an app channel

Anywhere you see an app channel, click the star button to favorite it. From Home, go to the OneGuide hub to see a selection of app channels to favorite. To see more, select App channels from the OneGuide hub and then select More app channels. To see all your favorites, select App channels from the OneGuide hub or from within the OneGuide app, press  on your controller and select App channels.

Customize your new Xbox One Experience

Personalize your profile

Personalizing your profile is easy! Make sure you're signed in, then select your gamerpic in the upper-left corner of the screen and Customize profile. From there, you can:

- Choose a new gamerpic.
- Create or edit your avatar.
- Change your background color.
- Add a bio and location.
- Change your gamertag.

Create or update your avatar in the Avatar Editor

Go to your profile and select Create avatar. Pick an avatar and start customizing. Select shuffle until you find one you like. When you're done, select Save. And if you want to replace your gamerpic with a picture of your avatar? Press  on your controller and select Take a photo. Then...

Adjust your settings

Open the guide and scroll to the  icon. Select All settings, and then choose the area where you want to make your changes.

Thank you.

Legal

Backward Compatibility:

Xbox One Backward Compatibility feature works with select Xbox 360 games, see <http://www.xbox.com/xbox-one/backward-compatibility>. Kinect and accessories designed for Xbox 360, and games requiring those accessories, are not compatible with Xbox One consoles. Xbox Live and broadband internet required for initial download of game to console. Games sold separately.

Games with Gold:

For paid Gold members only. On Xbox One, active Gold membership required to play free games you've redeemed. Restrictions apply. Requirements and available features vary across consoles. Each participating game (selected by Xbox) available for download from Xbox Store during specific window; available games may vary by country. Some titles

may only be available for download by adult account holders 18 years and older. Kinect and/or hard drive required for some games. Offer available in all Xbox Live countries where Xbox Live Gold memberships are supported. Offer is nontransferable, not redeemable for cash, and cannot be combined with any other rebate or offer. Offer terms and availability subject to change. Taxes, if any, are the sole responsibility of member. Download charges may apply as set by your ISP. See xbox.com/live.

OneGuide:

OneGuide only available in US, UK, Canada, Germany, France, Mexico, Australia, and Brazil; advanced TV hardware and broadband internet required. Jurassic World available on Microsoft Movies & TV © 2015 Universal Studios. All rights reserved.

Xbox Live Gold:

Online multiplayer, party chats, cloud saves, and some features of Game DVR require Xbox Live Gold subscription (sold separately).

Streaming:

Stream to one device at a time; streaming with multiplayer from Xbox One requires home network connection and Xbox Live Gold membership (sold separately).

Product still in development:

Dates, content, and features subject to change without notice. See <http://www.xbox.com/en-US/xbox-one/experience?xr=shellnav> for more information.
